- Tested to meet: OSHA/ANSI A14.2-2000 (USA) CSA-3-Z11-M81 (Canada)
BS 2037:1994 (UK) EN131: Part 2: 1993 (Europe)

Standards for a Class 1A Extra Heavy Duty ladder for a 300 lb (136 kg) working load rating

BALLISTIC BLANKET (ONLY):

Consists of nylon outer carrier and ballistic interior panel

- Extended size: 71 in. x 21 in. (180 cm x 53 cm)
- Folded size: 21 1/2 in. x 12 in. x 6 in. (55 cm x 30 cm x 15 cm)
- Weight: 22.5 lbs (10 kg)

OUTER CARRIER

- Made of 1000 denier Cordura® ballistic nylon.
- Heavy duty 1 in. (2.5 cm) tie straps to secure to the ladder.
- Heavy duty 2 in. (5 cm) nylon straps for securing a patient, stored in pockets with Velcro® closure.
- Heavy duty buckles.
- Designed to fit on the modified QUIKSTEP™ ladder above.
- Can be used on or off the ladder as a shield and as an emergency stretcher.
- Can be cleaned with normal cleaning procedures once the ballistic panel is removed.
- Available in Black or Woodland Camouflage.

BALLISTIC PANEL:

- The current panel has been tested under V50 military fragmentation requirements 2, 4, 16 and 64 grain steel according to MIL-STD-662F.
- It also meets or exceeds NIJ 0108.01 Level IIIA ballistic required velocity 1350 – 1450 fps for 44 mag LSWC-GC, 240 gr. and 9mm Luger FMJ 124 gr.
- The construction is a multi-layer Kevlar® aramid fabric panel design secured inside a water proof cover.
- The ballistic material will not slip or sag when secured inside the waterproof cover.
- The sealed ballistic material will not sag while in the removable outer cover regardless of position of the blanket.
- Can be removed from the outer carrier.

BACKPACK:

- 1000 denier Cordura® nylon – Weighs .5 lb (0.2 kg) – Available in Black or Woodland Camo.
- Heavy duty nylon webbing – Padded hip belt – Padded back – Contoured shoulder straps with “QUIK” release buckles – Hand carry strap
- Designed to hold the ladder as well as the blanket securely and comfortably with minimum interference to the wearer’s mobility or arm and hand motion.
- The “QUIK” release buckles allow the entire pack to be dropped from the wearer’s back without interfering with either arm.

ACCESSORIES - OPTIONAL:

- Wheel Kit for bottom of ladder - allows use as a wheeled stretcher
- Connector Kit - allows 2 QUIKSTEP™ ladders to be quickly attached together to make a 12-foot straight ladder
